

PRODUCT INFORMATION

able \$hasAttributeValueDescription in C:\wwwroot\mirror.dimabio.com\wp-content\plugins\woocommerce-print-voocommerce-print-products-public.php on line 2806 Clone ID

IFN-gamma;Immune interferon

Host Species Rabbit

Anti-IFNG antibody(1A2), IgG1 Chimeric mAb Description

Delivery In Stock Uniprot ID P01579

Rabbit/Human Fc chimeric IgG1 lgG type

Clonality Monoclonal Reactivity Human ELISA Applicati

Recommend Dilutions ELISA 1/5000-10000

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Ce specific instructions of reconstitution.

Storage & Shipping

Special 20°C to 30 of the 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid Special 20°C to 30°C) and the 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid Special 20°C) and the 12°C of th Background

Usage Conjugate Research use only Unconjugated

All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement.

Anti-IFNG (1A2) mAb ELISA 0.1µg of Human IFN gamma Protein per well

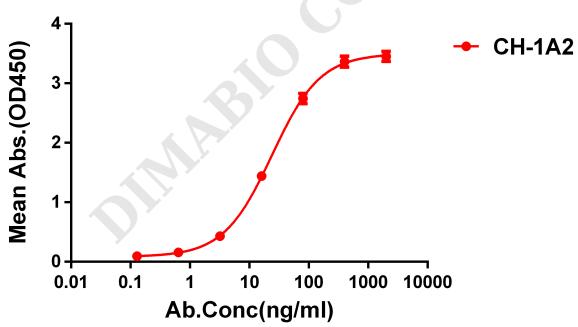

Figure 1. ELISA plate pre-coated by 1 μ g/ml (100 μ l/well) Human IFN gamma Protein (PME30035) can bind Rabbit anti-IFNG monoclonal antibody(clone: 1A2) in a linear range of 10-100 ng/ml.
