| <b>Conjugate</b>                        | Unconjugated                                                                                                                                                                                                                                                  |
| <b>Applications</b>                     | Flow Cyt                                                                                                                                                                                                                                                      |
| <b>Recommended Dilutions</b>            | Flow Cyt 1:100                                                                                                                                                                                                                                                |
| <b>Formulation &amp; Reconstitution</b> | Lyophilized from sterile PBS, pH 7.4. Normally 5% - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.                                                               |
| <b>Host Species</b>                     | Humanized                                                                                                                                                                                                                                                     |
| <b>IgG type</b>                         | Human IgG2 - Kappa                                                                                                                                                                                                                                            |
| <b>Reactivity</b>                       | Human                                                                                                                                                                                                                                                         |
| <b>Target</b>                           | PCSK9                                                                                                                                                                                                                                                         |
| <b>Uniprot ID</b>                       | Q8NBP7                                                                                                                                                                                                                                                        |
| <b>Description</b>                      | Anti-PCSK9(bococizumab biosimilar) mAb                                                                                                                                                                                                                        |
| <b>Delivery</b>                         | In Stock                                                                                                                                                                                                                                                      |
| <b>Yefei Storage</b>                    | Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.           |
| <b>Background</b>                       | Research grade biosimilar. Not for use in therapeutic or diagnostic procedures for humans or animals.                                                                                                                                                         |
| <b>Usage</b>                            | Research use only                                                                                                                                                                                                                                             |

Figure 1. Flow cytometry analysis under cell membrane permeable condition with 1  $\mu$ g/mL Anti-PCSK9 (bococizumab biosimilar) mAb (BME100095) on HEK293 cells transfected with Human PCSK9 protein (Blue histogram) or HEK293 transfected with irrelevant protein (Red histogram).
