Cat. No. DME100004B

PRODUCT INFORMATION

Warning: Undefined variable ShasAttributeValueDescription in C:\www.root\mirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public.class-woocommerce-print-products-public.php on line 2806
bM4 Clone ID

всма TNFRSF17 Synonyme Host Species Rabbit

Biotinylated Anti-BCMA antibody(DM4); Rabbit mAb Description

Delivery 2-3 weeks Uniprot ID Q02223 lgG type Rabbit IgG Clonality Monoclonal Reactivity Human Application ELISA; Flow Cyt Recommended Dilutions Flow Cyt 1:100; IP 1:30

Purification Purified from cell culture supernatant by affinity chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. Formulation & Reconstitution

Storage & Shipping

Specific instructions or reconstitutions. Store at 29°C to .80°C for 12°C nonths in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at an abient temperature.

The protein encoded by this gene is a member of the TINF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes; and The protein encoded by this gene is a member of the TINF-receptor superfamily. This receptor is preferentially expressed in mature B lymphocytes; and the protein of the TINF-receptor is not in the specifically being the state of the TINF-receptor is not in the specifically into the terminal recruits and the specifically superfamily; member 13b (TINFSF13B:TALL-1:BAFF); and to lead to NF-kappaB and MAPKB;NR activation. This receptor also binds to various TIRAF family members; and thus may transduce signals for cell survival and profileration. [provided by RefSec; Jul 2008]
