Cat. No. DME100104B

PRODUCT INFORMATION

Warning: Undefined variable \$hasAttributeValueDescription in Cs\www.root\wirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public.chass-woocommerce-print-products-public.php on line 2806
bM104 Clone ID

CD30

TNFRSF8;CD30;D1S166E;Ki-1 Synonyme

Host Species Rabbit

Biotinylated Anti-CD30 antibody(DM104); Rabbit mAb Description 2-3 weeks

Delivery P28908 Uniprot ID lgG type Rabbit IgG Clonality Monoclonal Reactivity Human Application ELISA; Flow Cyt

Recommended Dilutions ELISA 1:5000-10000; Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. Formulation & Reconstitution

Storage & Shipping

specific instructions or reconstitutions. Store at 29°C to .80°C for 12°C to .80°C for 12°C months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at an abilient temperature.

The protein recorded by this gene is a member of the TMF-receptor superfamily. This receptor is expressed by activated, but not by resting. T and B TMF receptor is a protein and the state of the TMF-receptor is a positive regulator of apoptosis; and also has been shown to limit the proliferative potential of autoreactive CDB effector T cells and protect the body against autoimmunity. Two alternatively spliced transcript variants of this gene encoding distinct isoforms have ner reported. Background
