Cat. No. DMC100468B

## **PRODUCT INFORMATION**

Clone ID **DMC468 Target** CLEC1A

CLEC-1; CLEC1 **Synonyms** 

**Host Species** Rabbit

Biotinylated Anti-CLEC1A antibody(DMC468); Description

IgG1 Chimeric mAb

**Delivery** 2-3 weeks **Uniprot ID Q8NC01** 

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Storage & Shipping

**Background** 

Flow Cyt 1:100 **Dilutions** 

Purified from cell culture supernatant by affinity **Purification** 

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store

at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

témperature.

This gene encodes a member of the C-type lectin:C-type lectin-like domain (CTL:CTLD) superfamily. Members of this family share a common protein fold and have diverse functions;

such as cell adhesion; cell-cell signaling; glycoprotein turnover; and roles in inflammation

and immune response. The encoded protein may play a role in regulating dendritic cell function. This gene is closely linked to other CTL:CTLD

superfamily members on chromosome 12p13 in the natural killer gene complex region.

Alternative splicing results in multiple transcript variants. [provided by RefSeq; Jul 2014]
