

PRODUCT INFORMATION

Clone ID DM154 **FAP Target**

Synonyms FAP;FAPalpha;SIMP;Seprase;APCE

Host Species Rabbit

Biotinylated Anti-FAP antibody(DM154); Rabbit Description

mAb

Delivery 2-3 weeks **Uniprot ID** Q12884 Rabbit IgG IgG type Clonality Monoclonal Reactivity Human

Applications ELISA; Flow Cyt

Recommended

ELISA 1:5000-10000; Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

témperature.

The protein encoded by this gene is a homodimeric integral membrane gelatinase belonging to the serine protease family. It is selectively expressed in reactive stromal fibroblasts of epithelial cancers; granulation tissue of healing wounds; and malignant cells of bone and soft tissue sarcomas. This protein is thought to be involved in the control of fibroblast

Background growth or epithelial-mesenchymal interactions during development; tissue répair; and epithelial

carcinogenesis. Alternatively spliced transcript variants encoding different isoforms have been

found for this gene.

Usage Research use only

Conjugate Biotinylated

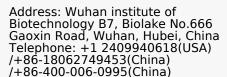

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are

actively scrutinizing all patent application to

ensure no IP infringement.
