

## PRODUCT INFORMATION

Warning: Undefined variable ShasAttributeValueDescription in C:\www.root\mirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public\class-woocommerce-print-products-public.php on line 2806 bM91 Clone ID

GPRC5D GPRC5D Synonyme Host Species Rabbit

Biotinylated Anti-GPRC5D antibody(DM91); Rabbit mAb Description Delivery 2-3 weeks

Uniprot ID Q9NZD1 lgG type Rabbit IgG Clonality Monoclonal Reactivity Human Application Flow Cyt Recommend Dilutions Flow Cyt 12.5ug/mL

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis fo specific instructions of reconstitution.

Storage & Shipp

Specime insolutional on exchangement in expension of the speciment in expe Background

Conjugate Biotinylated

All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaime

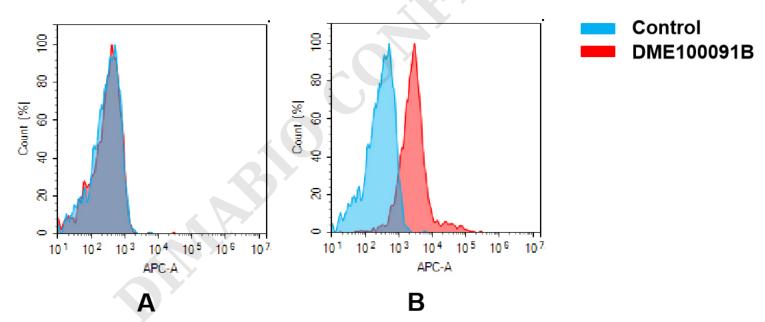

Figure 1. Flow cytometry analysis of antigen binding of rabbit anti-human GPRC5D mAb(DME100091B).

(A) DME100091B does not bind to Jurkat cells that do not express GPRC5D.

(B) A clear peak shift of DME100091B was seen compared to the control when incubated with GPRC5D-expressing MM.1S cells, indicating strong binding of DME100091B to GPRC5D. Antibodies were incubated at 12.5 ug/mL.
