Cat. No. DMC100225B

## PRODUCT INFORMATION

Warning: Undefined variable shasAttributeValueDescription in Cs\www.root\wirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public.chass-woocommerce-print-products-public.php on line 2806
DMC225 Clone ID

II 21R

CD360; IMD56; NILR Synonyme

Host Species Rabbit

Biotinylated Anti-IL21R antibody(DMC225); IgG1 Chimeric mAb Description

Delivery 2-3 weeks Uniprot ID Q9HBE5

lgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human Applications ELISA; Flow Cyt

Recommended Dilutions ELISA 1:5000-10000; Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.

Storage & Shipping

specific instructions of reconstitution.

Store at 2.0º C to .80º, C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at .80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

The protein encoded by this gene is a cytokine receptor for interleukin 21 (IL21), it belongs to the type I cytokine receptors; and has been shown to form a heterodimeric receptor complex with the common gamma-chair; a receptor subunit also shared by the receptors for interleukin 2; 4; 7: 9: and IS. This receptor transduces the growth promoting signal of IL21; and is important for the proliferation and differentiation of T cells. Be legal to finding of this receptor leads to the activation of multiple downstream signaling moles; including MX; JAX; STAT1; and Latural to the control of the contro

Usage Research use only

Biotinylated

Biotinylated

All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaimer
