Cat. No. DME100152B

PRODUCT INFORMATION

Warning: Undefined variable ShasAttributeValueDescription in C:\www.root\mirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public.class-woocommerce-print-products-public.php on line 2806
bM152 Clone ID

CD126; gp80; IL-6R-1; IL-6RA; IL6Q; IL6RA; IL6RQ Synonyme

Host Species Rabbit

Biotinylated Anti-IL6R antibody(DM152); Rabbit mAb Description Delivery 2-3 weeks

P08887 Uniprot ID lgG type Rabbit IgG Clonality Monoclonal Reactivity Application ELISA; Flow Cyt

Recommended Dilutions ELISA 1:5000-10000; Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. Formulation & Reconstitution

Storage & Shipping

specific instructions of reconstitution.

Store at -20°C to -80°C for 12° months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

This gene encodes a subunit of the interleukin of (ILB) receptor complex. Intended unit of a potent pleiotropic cytokine that regulates cell growth and differentiation and plays an important role in the immune response. The ILB receptor is a protein complex consisting of this protein and interleukin 6 is a potent pleiotropic cytokine that regulates cell growth and differentiation and plays an important role in the immune response. The ILB receptor is a protein complex consisting of this protein and interleukin 6 is any any other cytokines. Dysregulated production of ILB and this receptor are implicated in the pathogenesis of many diseases; such as multiple myeloma; autoimmune diseases and prostate cancer. Alternatively spliced transcript variants encoding distinct isoforms have been reported. A pseudogene of this gene is found on chromosome 9.

Research use only Background

Usage Coniugate

, rotein s. All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaimer
