bM124 Clone ID

PD-L1; CD274; B7-H1; PDCD1L1; PDCD1LG1 Synonyme

Host Species Rabbit

Biotinylated Anti-PD-L1 antibody(DM124); Rabbit mAb Description Delivery 2-3 weeks

Q9NZQ7 Uniprot ID lgG type Rabbit IgG Clonality Monoclonal Reactivity Human Application ELISA; Flow Cyt

Recommended Dilutions ELISA 1:5000-10000; Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. Formulation & Reconstitution

Storage & Shipping

specific instructions of reconstitution.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

This gene encodes an immune inhibitory receiptor ligiand that is expressed by hematopoietic and non-hematopoietic cells, such as T cells and B cells and This gene encodes an immune inhibitory receiptor ligiand that is expressed by hematopoietic or inflammation of normal fissue; this ligit is cells and a cytokine production. During infection or inflammation of normal fissue; this interaction is normal fissue; this interaction provides an immune escape for tumor cells through cytotoxic T-cell inactivation. Expression of this gene in tumor cells considered to be prognostic in many types of human malignancies; including colon cancer and renal cell carcinoma. Afternative spicing results in multiple transcript variants.
