108 Clone ID

Synonyme

Host Species Rabbit

Biotinylated Anti-TSHR antibody(1C8), IgG1 Chimeric mAb Description

Delivery 2-3 weeks Uniprot ID P16473

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human Applications Flow Cyt Recommended Dilutions Flow Cyt 1/100

Purification Purified from cell culture supernatant by affinity chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 14% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. Formulation & Reconstitution

Storage & Shipping

Specinic instructions or reconstitution.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -86°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.

The protein encoded by this gene is a membrane protein and a major controller of thyroid cell metabolism. The encoded protein is a receptor for thyrothropin and thyrostimulin, and its activity is mediated by adenylate cyclase. Defects in this gene are a cause of several types of hyperthyroidism. Three transcript variants encoding different isoforms have been found for this gene, [provided by RefSeq, Dec 2008]
