Storage & Shipping

OHRIPA CONTRACTOR OF THE PARTY Store at 20°C to 80°C for 12 months in lyophilized form After reconstitution. If not interned for use within a month, aliquot and store at -80°C (Avoid This gene was identified upon peromic analysis of a gene-dense region at human chromosome 12013. It appears to be mainly expressed in the brain; however, its function is not known. Alternatively spliced transcript variants encoding different isoforms have been identified.
