Cat. No. FLP100112

## **PRODUCT INFORMATION**

TagC-Flag TagTargetSCARB1

Synonyms CD36L1;CLA-1;CLA1;HDLQTL6;SR-BI;SRB1
Human SCARB1 full length protein-synthetic

Delivery In Stock
Uniprot ID Q8WTV0
Expression Host HEK293

**Protein Families** Druggable Genome, Transmembrane

Protein Pathways N/A

Molecular Weight The human full length SCARB1 protein has a MW

of 60.9 kDa Lyophilized from nanodisc solubilization buffer (20

mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5%
– 8% trehalose is added as protectants before
lyophilization. Please see Certificate of Analysis
for specific instructions. Do not use solvents with

a pH below 6.5 or those containing high concentrations of divalent metal ions (greater than 5 mM) in subsequent experiments.

Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

Storage & Shipping intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

témperature.

The protein is a plasma membrane receptor for high density lipoprotein cholesterol (HDL). The encoded protein mediates cholesterol transfer to and from HDL. In addition, this protein is a receptor for high choice of the protein is a processor for the protein is a plasma membrane receptor for high density lipoprotein is a plasma membrane receptor for high density lipoprotein choice is a plasma membrane receptor for high density lipoprotein choice is a plasma membrane receptor for high density lipoprotein choice is a plasma membrane receptor for high density lipoprotein choice is a plasma membrane receptor for high density lipoprotein is a plasma membrane receptor for hi

## ELISA assay to evaluate SCARB1-Nanodisc 0.2µg Human SCARB1-Nanodisc per well

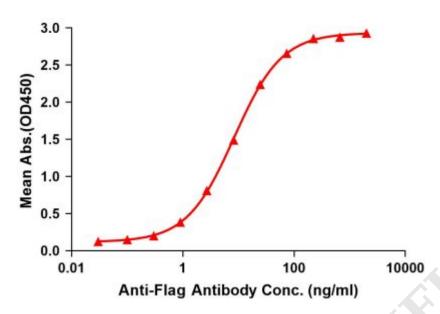

Figure 1. Elisa plates were pre-coated with Flag Tag SCARB1-Nanodisc ( $0.2\mu g/per$  well). Serial diluted anti-Flag monoclonal antibody solutions were added, washed, and incubated with secondary antibody before Elisa reading. From above data, the EC50 for anti-Flag monoclonal antibody binding with SCARB1-Nanodisc is 8.388ng/ml.

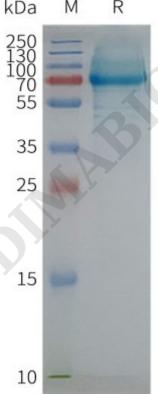

Figure 2. Human SCARB1-Nanodisc, Flag Tag on SDS-PAGE
