

PRODUCT INFORMATION

Target	CCR8, CD45, LGALS1
Description	The embedded and sliced tumor sections (4µm section) from M-NSG mice implanted with Hut78 cells
Host Cells	Hut78
Applications	Identification of immunohistochemical function
Host mice	M-NSG
Delivery	One week
Guarantee	36 months from the date of manufacture
Background	These carefully prepared tissue slides offer researchers standardized and high-quality samples for antibody testing. Utilizing tumor models derived from immunocompromised mice, researchers can confidently assess antibody specificity and sensitivity, driving advancements in cancer diagnostics and therapeutics.
Storage & Shipping	Room temperature
Usage	Research use only

DIMABIO CONFIDENTIAL
