DM47 Clone ID

ACE2 ACE-2; ACEH; ACE2 Synonyme

Host Species Rabbit

PE-conjugated Anti-ACE2 antibody(DM47); Rabbit mAb Description

Delivery Under Development Uniprot ID Q9BYF1 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human Flow Cyt Applications

Recommended Dilutions Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

The protein encoded by this gene belongs to the angiotensin-converting enzyme family of dipeptidyl carboxydipeptidases and has considerable homology to human angiotensin 1 converting enzyme. This secreted protein catalyzes the cleavage of angiotensin 1 into angiotensin 1-9; and angiotensin 1-10 and cell-specific expression of this gene suggestat, it may play a role in the regulation of cardiovascular and renal function: as well as fertility. In addition; the encoded protein is a functional receptor for the spike glycoprotein of the human coronaviruses SARS and HCOV-NLGS. Background

Research use only Usage Conjugate

protein seg Research use unity
PE-conjugated
All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaimer
