

PRODUCT INFORMATION

 Clone ID
 DM97

 Target
 B7-H2

Synonyms ICOSLG; B7-H2; B7RP-1; B7RP1; CD275; GL50; ICOS-L; ICOSL; LICOS; ICOS ligand

Host Species Rabbit

Description PE-conjugated Anti-B7-H2 antibody(DM97); Rabbit

mAb

Delivery 3-4 weeks
Uniprot ID 075144
IgG type Rabbit IgG
Clonality Monoclonal
Reactivity Human
Applications Flow Cyt

Recommended Pilutions Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity

chromatography

Formulation & ReconstitutionLiquid□PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

Inducible co-stimulator ligand (ICOSL); also known as B7-H2; is a member of the B7 family of co-stimulatory molecules related to B7-1 and B7-2. The protein is the ligand for the T-cell-specific cell surface receptor ICOS. Acts as a costimulatory signal for T-cell proliferation and cytoking specific produces also B. cell.

Background cytokine secretion; induces also B-cell

cyclifferation, indeed and cells. Could play an important role in mediating local tissue responses to inflammatory conditions; as well as in modulating the secondary immune response by co-stimulating memory T-cell

function.

Usage Research use only

Conjugate PE-conjugated
