DMG Clone ID

ВСМА TNFRSF17 Synonyme Host Species Rabbit

PE-conjugated Anti-BCMA antibody(DM6); Rabbit mAb Description

Delivery Under Development Uniprot ID Q02223 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human Flow Cyt Applications Recommended Dilutions Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

The protein encoded by this gene is a member of the TNF-receptor superfamily. This receptor is preferentially expressed may be important for 8 cell development and autoimmune response. This receptor has been shown to specifically bind by (iligand) superfamily: member 130 (TNFSF1818/TALL-18AFF); and to lead to NF-kappa8 and MRPK8]NK activation. This reTRAF family members; and thus may transduce signals for cell survival and proliferation. [provided by RefSeq; Jul 2008]

Research use only

Usage Coniugate

PE-conjugated
All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaimer
