Cat. No. DMC100283P

PRODUCT INFORMATION

Warning: Undefined variable ShasAttributeValueDescription in C:\www.root\mirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public\class-woocommerce-print-products-public.php on line 2806 bMC283 Clone ID

SELPLG

PSGL-1;PSGL1;CD162;SELPLG;Selectin P ligand Synonyme

Host Species Rabbit

PE-conjugated Anti-CD162 antibody(DMC283); IgG1 Chimeric mAb Description

Delivery Under Development

Uniprot ID

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human Flow Cyt Applications Recommended Dilutions Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

This gene encodes a glycoprotein that functions as a high affinity counter-receptor for the cell adhesion molecules P₂: E-myelioid cells and stimulated T lymphocytes. As such; this protein plays a critical role in leukocyte trafficking during infla leukocytes to activated platelets or endothelia expressing selectins. This protein requires two post-translational modification addition of the sialyl Lewis x tetrasaccharide (slexy) to its O-linked glycans; for its high-affinity binding activity. Aberrant polymorphisms in this gene are associated with defects in the innate and adaptive immune response. Alternate splicing variants. Background

Conjugate PE-conjugated

protein sec All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaimer
