CD46;AHUS2;MCP;MIC10;TLX;TRA2.10 Synonyme

Host Species Rabbit

PE-conjugated Anti-CD46 antibody(DM145); Rabbit mAb Description

Delivery Under Development Uniprot ID P15529 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human Flow Cyt Application Recommended Dilutions Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping

Store at 2°C-8°C for 6 months

The protein encoded by this gene is a type I membrane protein and is a regulatory part of the complement system activity for inactivation of complement components C3b and CAb by serum factor I which protects the host cell for addition; the encoded protein can act as a receptor for the Edmonston strain of measles virus; human herpesvirus-Neisseria. Finally; the protein encoded by this gene may be involved in the fusion of the spermatozoa with the cot this locus have been associated with susceptibility to hemolytic uremic syndrome. Alternatively spliced transcript have been described. Background

Conjugate PE-conjugated

ven seq: All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaimer
