| Host Species                 | Rabbit                                                                                                                                                                                                                                                                 |
| Description                  | PE-conjugated Anti-CLEC9A antibody(DMC469); IgG1 Chimeric mAb                                                                                                                                                                                                          |
| Delivery                     | Under Development                                                                                                                                                                                                                                                      |
| Uniprot ID                   | Q6UXN8                                                                                                                                                                                                                                                                 |
| IgG type                     | Rabbit/Human Fc chimeric IgG1                                                                                                                                                                                                                                          |
| Clonality                    | Monoclonal                                                                                                                                                                                                                                                             |
| Reactivity                   | Human                                                                                                                                                                                                                                                                  |
| Applications                 | Flow Cyt                                                                                                                                                                                                                                                               |
| Recommended Dilutions        | Flow Cyt 1:100                                                                                                                                                                                                                                                         |
| Purification                 | Purified from cell culture supernatant by affinity chromatography                                                                                                                                                                                                      |
| Formulation & Reconstitution | Liquid[]PBS with 0.05% Proclin300, 1% BSA                                                                                                                                                                                                                              |
| Storage & Shipping           | Store at 2°C-8°C for 6 months                                                                                                                                                                                                                                          |
| Background                   | CLEC9A is a group V C-type lectin-like receptor (CTLR) that functions as an activation receptor and is expressed on myeloid lineage cells (Huysamen et al.; 2008 [PubMed 18408006]).[supplied by OMIM; Aug 2008]                                                       |
| Usage                        | Research use only                                                                                                                                                                                                                                                      |
| Conjugate                    | PE-conjugated                                                                                                                                                                                                                                                          |
