Cat. No. DMC100499P

## PRODUCT INFORMATION

Warning: Undefined variable ShasAttributeValueDescription in C:\www.root\mirror.dimablo.com\wp-content\plugins\woocommerce-print-products\public\class-woocommerce-print-products-public.php on line 2806 bMC499 Clone ID

FSP; GRO1; GROa; MGSA; MGSA-a; NAP-3; SCYB1 Synonyme

Host Species Rabbit

PE-conjugated Anti-CXCL1 antibody(DMC499); IgG1 Chimeric mAb Description

Delivery Under Development

Uniprot ID P09341

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human Flow Cyt Applications Recommended Dilutions Flow Cyt 1:100

Purification Purified from cell culture supernatant by affinity chromatography

Formulation & Reconstitution Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

sure at 2°C-8°C for 6 months.

This antimicrobial gene encodes a member of the CXC subfamily of chemokines. The encoded protein is a secreted growth factor that signals the G-protein coupled freeptor; CXC receptor 2. This protein plays a role in inflammation and as a chemoardarctant for neutrophils. Aberrant of this protein is associated with the growth and progression of certain tumors. A naturally occurring processed form of this protein has increase chemotactic activity. Alternate splicing results in coding and non-coding variants of this gene. A pseudogene of this gene is found on chromos [provided by RefSeq: Sep 2014]

Research use only Background

Usage Conjugate

, rotein seq. Research use unity
PE-conjugated
All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement. DIMA Disclaime
